

Appropriate Clothing for Skiing / Snowboarding

YES

The mountain will provide you with the ski boots and helmet you see in this picture (snowboarders will get slightly different boots.) On the day of the ski trip you should wear everything else you see here. If you don't have ski pants, a ski jacket, goggles or warm, waterproof gloves you will need to buy them or borrow them for the day. Ask your homestay family to help you!

NO

Hoodies, sweatpants and jeans are NOT appropriate for skiing or snowboarding. You'll be very cold, especially when you get wet from being in the snow all day!
